

Chic D258

Elegant model

The beauty of the curve

The beauty of the curve

Simple & Elegant

CHIC obtains both functionality and beauty. The appearance is simple and stylish. The curved structure brings you the feeling of elegance and light. Combined with the suspended backrest, it brings CHIC a unique identification feature. The curvature of the elastic mesh backrest supports sacrum steadily, allowing your spine to maintain a natural "S" shape, forming a strong and comfortable support for your spine.

Fit in various spaces

CHIC's offers 2 color options for backrest frames and 3 color options for mesh which makes CHIC integrated in any space easily . Whether it's for office, conference room or home, CHIC's exquisite and elegant design with simple style could create a free and relaxing atmosphere for you.

Healthy sitting, stable support

CHIC obtains excellent ergonomic performance and high durability. The backrest naturally fits the three ergonomic areas—the sacrum, thoracic spine and scapula with adaption to the body micro-motion. When you sit down, your weight is distributed evenly on the chair which can reduce your stress and encourage you to exercise which are the keys to maintain healthy blood circulation and concentration.

Comfortable support

The armrests are an important element of the chair. CHIC adopts an aerodynamic structure with a simple and stylish appearance. It has a soft PU cover, which can be adjusted up and down, forward and backward, and left and right which can easily provide perfect support for your arms.

Up & Down

Forward&Backward

Left & Right

Rotate 1 time in any direction to complete back tilt locking position
