

Lucy

L7129

Lucy blends ergonomics and artistic aesthetics to offer a tranquil meditative experience. Its design aims to create an inclusive and warm resting space. The chair's unique shape resembles a cozy cradle, gives a feeling as if embraced by mother, experiencing boundless warmth and security.

The handrails are made of a composite process of high-density resilient sponge and wear-resistant velvet, which makes them soft to the touch and provides long-lasting support, meeting the comfort needs of long-term office work or reception scenarios.
